

c An open ecosystem

interoperates with 4DN · scverse · Open2C · Juicer

Interfaces
people · agents

python™ API · CLI · web browser · MCP server + agent skills

Methods
one API

- **uchrom.recon** — 3-D structures from contacts single-cell and bulk
- **uchrom.im** — spots → traces fill in missing loci
- **uchrom.strc** — TADs, loops, compartments
- **uchrom.fea** — per-locus geometric features
- **uchrom.emb** — cell embeddings across modalities

ChromData cell › trace › spot · geometry · contacts · features · .h5cd, versioned spec
