a Analysis in code, visualization in the browser — for researchers and agents

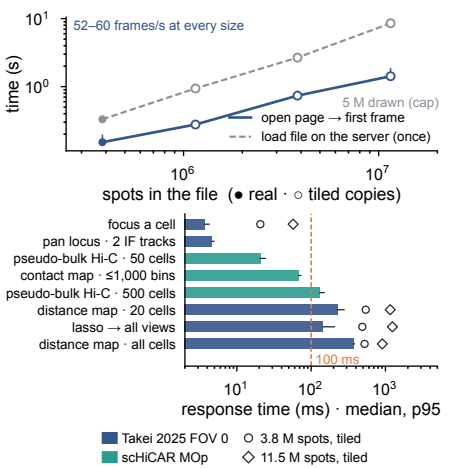

b Linked exploration in the browser

Takei 2025 cerebellum · lasso Bergmann cells in the RNA UMAP; every pane follows the selection

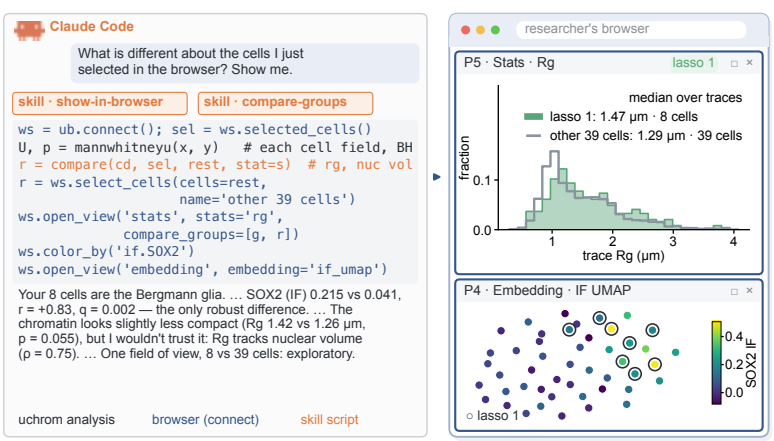

c Interactive at real scale

Apple M5 Pro · Chromium 153 · load avg 1.8–3.3

d Researcher and agent hand work to each other

real Claude Code session (Opus 5.5, 13 turns, 65 s), trimmed (…); its two views redrawn from the data

e Agent skills: anatomy and benchmark
